PROFESSIONAL SUMMARY

Data Engineer skilled in designing and optimizing scalable data pipelines, ETL workflows, and cloud-based solutions. Proficient in Python, PySpark, SQL, Databricks, and AWS. Experienced in automating data processes, ensuring data quality, and implementing data governance frameworks. Passionate about leveraging big data technologies and machine learning to deliver impactful, data-driven solutions. Continuously advancing skills in cloud architecture, data engineering, and advanced analytics.

EDUCATION

MTech in Data Science and Engineering – Birla Institute of Technology and Science, Pilani	September 2024 – Present
BTech in Computer Science and Engineering – Pimpri Chinchwad College of Engineering, Pune CGPA : 9.29	June 2018 – June 2022
Higher Secondary School (HSC) – Maharashtra Udaygiri Mahavidyalaya, Udgir Percentage: 92.34% College Topper	June 2016 – June 2018
Secondary School (SSC) – Lal Bahadur Shastri High School, Udgir Percentage: 82.40%	June 2015 – June 2016

TECHNICAL SKILLS

Languages: Python, PySpark, SQL, C/C++, JavaScript, PHP
Cloud Platforms: AWS (S3, EC2, Lambda, Glue, Redshift), GCP (BigQuery)
Big Data Tools: Databricks, Apache Spark, Hadoop, Hive, Kafka
Data Warehousing & Databases: SQL, MongoDB, Snowflake, Hive
Data & Analytics: ETL Pipelines, Data Lineage, Data Governance, Data Quality, Machine Learning, Automation, Data Testing
DevOps & Tools: Git, Docker, Jenkins, CI/CD Pipelines, Postman, Swagger
Development Practices: Agile, SOLID Principles, Design Patterns

EXPERIENCE

Data Engineer Cognizant Client: Nike	November 2022–Present
– Data Pipeline Automation and Monitoring:	
* Automated monitoring and failure handling for 3,000+ Airflow DAGs and 1,000+ Databricks jobs, reducing manual intervention by 80% and ensuring timely job execution 24/7.	
* Integrated ServiceNow for automated incident creation, cutting response time by 40% and saving 25,000 IT hours annually .	
* Developed auto-healing mechanisms, improving pipeline stability and reducing downtime by 30%, leading to a 15% increase in overall system reliability.	
Key Skills: Python, SQL(Hive), Apache Airflow, Databricks Workflows, APIs, ServiceNow, Automation	
– Chatbot Using RAG Framework:	
* Developed a chatbot using Mosaic AI Agent Framework, integrated with Slack, and reduced manual query resolution time by 50% .	
* Leveraged Databricks endpoints and MLflow for model serving, achieving 95% accuracy in real-time user interactions.	
* Processed 10,000+ unstructured documents using TextSplitter and vector search, improving query response time by 40% .	
* Automated query handling, reducing manual support efforts by 60% and improving operational efficiency.	
Key Skills: Python, LLM, RAG Framework, Databricks, Slack Integration, MLflow, TextSplitter, Vector Search	
– Spark Expectations for Data Quality:	
* Integrated Nike's custom Spark Expectations framework with Apache Airflow, reducing data quality issues by 40% through real-time validation.	
* Automated error detection and reporting, decreasing manual intervention by 60% and improving dataset reliability.	
Key Skills: Python, Apache Spark, Airflow, Nike Spark Expectations, Data Validation, Data Quality	
– Data Drift Framework:	
* Automated data validation between SAP and Hive systems, reducing discrepancies by 50% and improving data accuracy.	

- * Streamlined variance reporting for discrepancies above 30%, cutting **resolution time by 35%** and enhancing data governance.
- * Processed 1M+ records daily using PySpark and Databricks, enabling real-time insights via Tableau dashboards.

Key Skills: Python, SQL, PySpark, Databricks, Tableau, SAP, Hive

– **DAG/Data Lineage Tracking Tool:**

- * Developed a UI for tracking data lineage across 500+ pipelines, improving data transparency and reducing debugging **time by 30%**.
- * Enabled users to view source and target tables for pipelines, enhancing traceability and governance **efficiency by 25%**.

Key Skills: Python, React.js, SQL

Data Engineer Intern | Cognizant

March 2022 – August 2022

- Gained hands-on experience with Hadoop, Scala, Hive, Apache Spark, and Scoop, while strengthening skills in data processing, analytics, and big data infrastructure.

Key Skills: Hadoop, Scala, Hive, Apache Spark, Scoop, Python, Data Processing, Data Analytics

Full Stack Developer Intern | English Espresso

October 2020 – March 2021

- Developed and maintained web applications using SQL, PHP, and front-end technologies, enhancing the learning experience with quiz features and chapter videos.
- Built a trainer dashboard for video uploads, quiz management, and attendance tracking, optimizing content delivery.
- Designed and integrated an admin control panel for managing website content and user activities.

Key Skills: SQL, PHP, HTML, CSS, JavaScript, Full Stack Development

RESEARCHES / PUBLICATIONS

Comprehensive Overview of DDoS Attacks in Cloud Computing Environment Using Machine Learning Techniques Nov 2023

- Analyzed the impact of DDoS attacks on cloud computing and proposed machine learning solutions for attack mitigation.
- Focused on scalability and geographic distribution issues in mitigating DDoS attacks across cloud environments.

Key Skills: Machine Learning, Cloud Computing, DDoS, Python, SQL

Publication Link: [Comprehensive Overview of DDoS Attacks in Cloud Computing](#)

Diseases Prediction Using Machine Learning

Spring 2022

- Developed a web application to predict diseases based on user-provided symptoms using machine learning algorithms (e.g., Decision Trees, Random Forest).
- Integrated features such as home remedies, doctor appointments, and online fee payments after diagnosis for a comprehensive user experience.
- Built the backend using PHP and MySQL for data storage, and created a responsive frontend with Bootstrap, JavaScript, and jQuery.

Key Skills: Machine Learning, Web Development, PHP, MySQL, Bootstrap, JavaScript, jQuery, AJAX

AWARDS AND CERTIFICATIONS

Retail India Champion | Cognizant

October 2024

4 x Cheers Award | Cognizant

May 2023 - October 2024

NEW India Learnthon Certification | ICT Academy

June 2020

College Topper in 12th | MUM College, Udgir

June 2018
